***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-31,33-35,37-41,44-50 and 52 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 1 and 52, the use of "separate pushing means" or separate pusher is vague and unclear, as it has not been established from what other claimed element it is separated.

In claims 17 and 19, there is no antecedent basis for "the outer end".

In claims 30 and 50, there appears to be a double inclusion of the "pushing means" already recited in claim 1.

In claim 38, there is no antecedent basis for "the incision means".

Claims 44 and 45 depend from claim 40, but claim 40 is not a method claim.

***Claim Objections***

Claims 15,19, 42 and 48 are objected to because of the following informalities:

In claim 15, the preamble "according to any of" is vague. It should be changed to "according to claim 6".

In claim 19, "first hold" should be "first hole", and "outer end" should be "proximal end".

In claim 42, "passage distal end" should be changed to "passage proximal end".

Art Unit: 3731

In claim 48, the phrase "a method to any of claim" is vague. It should be changed to "A method according to claim".

Appropriate correction is required.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-11,13-24,26,31,33,34 and 41-43 are rejected under 35 U.S.C. 102(e) as being anticipated by Markman-5951572.

Markman discloses a device including inserting means 714, supply means 710 or 28, holding means 726, support means 702, and incising means or pushing means 724. The supply means is a disc shaped cartridge. The support is a disc shaped member. The lobes are 732 the holding means holds hair grafts. See col. 6 lines 35-61.

***Allowable Subject Matter***

Claims 12,25,27-30,35,37-40 and 44-50 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Claim 52 is allowed.

Art Unit: 3731

### ***Response to Arguments***

Applicant's arguments filed 11-29-2004 have been fully considered but they are not persuasive.

Claim 1 does not claim both an incision means and a pusher means separate from the incision means as argued by applicant.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
